

## The Removable Attach-It™

Fasten a Removable Attach-It™ with supplied screw, slightly snug, towards the upper part on each side of the frame's backside.

**The 2 Removable Attach-Its™ will hold an amazing 50 lbs. Using 4, (2 on each side, side-by-side), will give you 100 lbs. of hanging power!**

To hang the picture, secure and straight, with your hands on the upper part of the frame front, gently press in at a down angle until the upper hooks on the Attach-Its™ are fully inserted into the drywall.

### Hanging multiple pictures at the same height?

After hanging the first picture, simply press the second in 1/4" or so higher than the first, to allow for the downward movement as the Attach-Its™ slide into the wall.

### To remove:

Pull the picture off the wall by lifting slightly up and towards you, leaving minimal marks.
